

If You Give A Mouse A Cookie Color Sorting

What you will need:

- 1) Brown Construction Paper OR you can color white paper brown to have as your cookies.
- 2) Paper plates to sort each color chocolate chip cookie.
If you do not have paper plates, you can cut out white paper and draw the colors on each paper to sort.
- 3) 3 different colored crayons or markers
- 4) Baking Tray and Spatula

What to do:

- 1) Cut out circles to make “cookies” (if you are coloring them in brown, use white paper to make circles and then color them)
- 2) Then, using 3 different colors (any colors you’d like), draw your chocolate chips all different colors on each cookie!
- 3) Once you have your cookies with your different colored chocolate chips, it’s time to bake and sort! Place your “cookies” on a baking sheet and get a spatula ready so that you can sort each cookie onto your different colored plates or pieces of paper. Make sure your chocolate chips match the color of your plates!

Example:
